## WHO WE ARE

RapidMEQ, LLC provides nationwide, web-based OSHA respirator medical evaluation and clearance services for geographically disperced workforces. RapidMEQ combines a mature electronic platform with physician-led medical review, centralized compliance documentation, and federal small-business certifications.

## CORE CAPABILITIES

- Online OSHA respirator Medical Evaluation Questionnaire workflow supporting 29 CFR 1910.134 compliance.
- Licensed physician review of questionnaires requiring clinical review and documented clearance disposition.
- Board-certified physician review available through Bobby Lee, MD, ABEM-certified Emergency Medicine.
- Electronic clearance documentation with centralized employer compliance tracking.
- Multi-site administration, role-based access, document storage, PFT and fit-test record integration.
- White-label branding and configurable company/site structure for enterprise customers.
- Remote nationwide delivery designed to reduce employee downtime and clinic dependence.

## FEDERAL DIFFERENTIATORS

- SBA-certified SDVOSB and VOSB with active SAM registration and federal CAGE code.
- Existing production web platform - not a concept-stage federal solution.
- Physician-led model focused specifically on respirator medical clearance and occupational-health workflow.
- Experience supporting safety-sensitive, geographically dispersed workforces across industrial sectors.
- Scalable for direct federal use, agency-wide deployment, or teaming under larger occupational-health programs.
- RapidMEQ does not use artificial intelligence to process Medical Evaluation Questionnaires.

## FEDERAL MISSION FIT

RapidMEQ aligns with federal requirements for respirator medical evaluations, respiratory-protection programs, employee medical clearance, occupational-health surveillance, and distributed workforce readiness. Priority markets include HHS Federal Occupational Health, DHS, DoD, DOE, DOI, USDA/Forest Service, and federal prime contractors supporting occupational-health programs.

## CLINICAL & PLATFORM STRENGTHS

- Physician-led medical review and PLHCP oversight.
- Board-certified Emergency Medicine physician review available.
- Centralized fit-test, PFT and clearance record support.
- Configurable enterprise and multi-site workflows.
- Commercially deployed platform with nationwide reach.
